

2021 Garden of Hope Impact Report

OUR COMMITMENT

Garden of Hope is a linguistically and culturally responsive domestic violence, sexual assault, human trafficking, and hate crime victim service organization that serves the vast Chinese immigrant community across the New York City metropolitan area and beyond.

Since its inception in 2004, Garden of Hope has effectively provided culturally and linguistically competent services to tens of thousands of Chinese immigrants and raised crucial public awareness around topics that are often stigmatized or ignored including domestic violence, abuse, and mental health. Garden of Hope is committed to addressing the unmet needs of the underserved Chinese immigrant population with compassion and respect.

In January of 2021, we launched the Garden of Hope Counseling Center to serve those suffering from trauma and anxiety associated with COVID-19, anti-Asian hate crimes, and the devastation from Hurricane Ida. In response to all the challenges our world has faced this year, we've proactively expanded our services to help more people in crisis and made meaningful progress in closing the gap in access to mental health counseling, healing, and treatment for the Chinese immigrant community.

Garden of Hope will continue to serve during these tumultuous times by moving wounded souls from crisis to courage, fear to peace, and misery to hope.

Who We Serve

Garden of Hope provides critical resources and support to victims and survivors of:

Sexual Assault & Harassment

Domestic Violence

Child Abuse & Neglect

Human Trafficking

Hate Crimes & Racial Violence

Elder Abuse
